

FTI Berlin

The Berlin is a small classic cruise ship - on board German speaking personal service awaits you. For guests of the smaller and more maneuverable ship, which has a maximum capacity of 412 passengers, there is much to discover off the beaten path - many new destinations to visit, because the Berlin can also stop at small, special ports due to its maneuverability and small size.

The Berlin has two restaurants: a main restaurant and the Verandah-Restaurant that offers indoor and outdoor dining, it also has bars and lounges to include the nautical Yacht Club Bar, the roomy Sirocco Lounge and the new Berlin Lounge on the sun deck. The BERLIN also has a small outside pool. Other amenities include a fitness area, a sauna spa area and a large library. Massages and spa treatments are also available.
